

# WOOD WALL PANEL

---

a vintage & elegant  
panel for interior

“

We strive to create beautiful products that transform rooms, hoping they will also change the lives within them.

”

# ARTISAN PRODUCT

Handcrafted wood wall panel, is designed to create a simple yet luxurious and elegant vibe for your home. It is made entirely of local wood and assembled by professional woodworkers. By implementing thorough quality control to every piece of the panel, **Rustic World Timber continually upholds consumer trust and quality.**

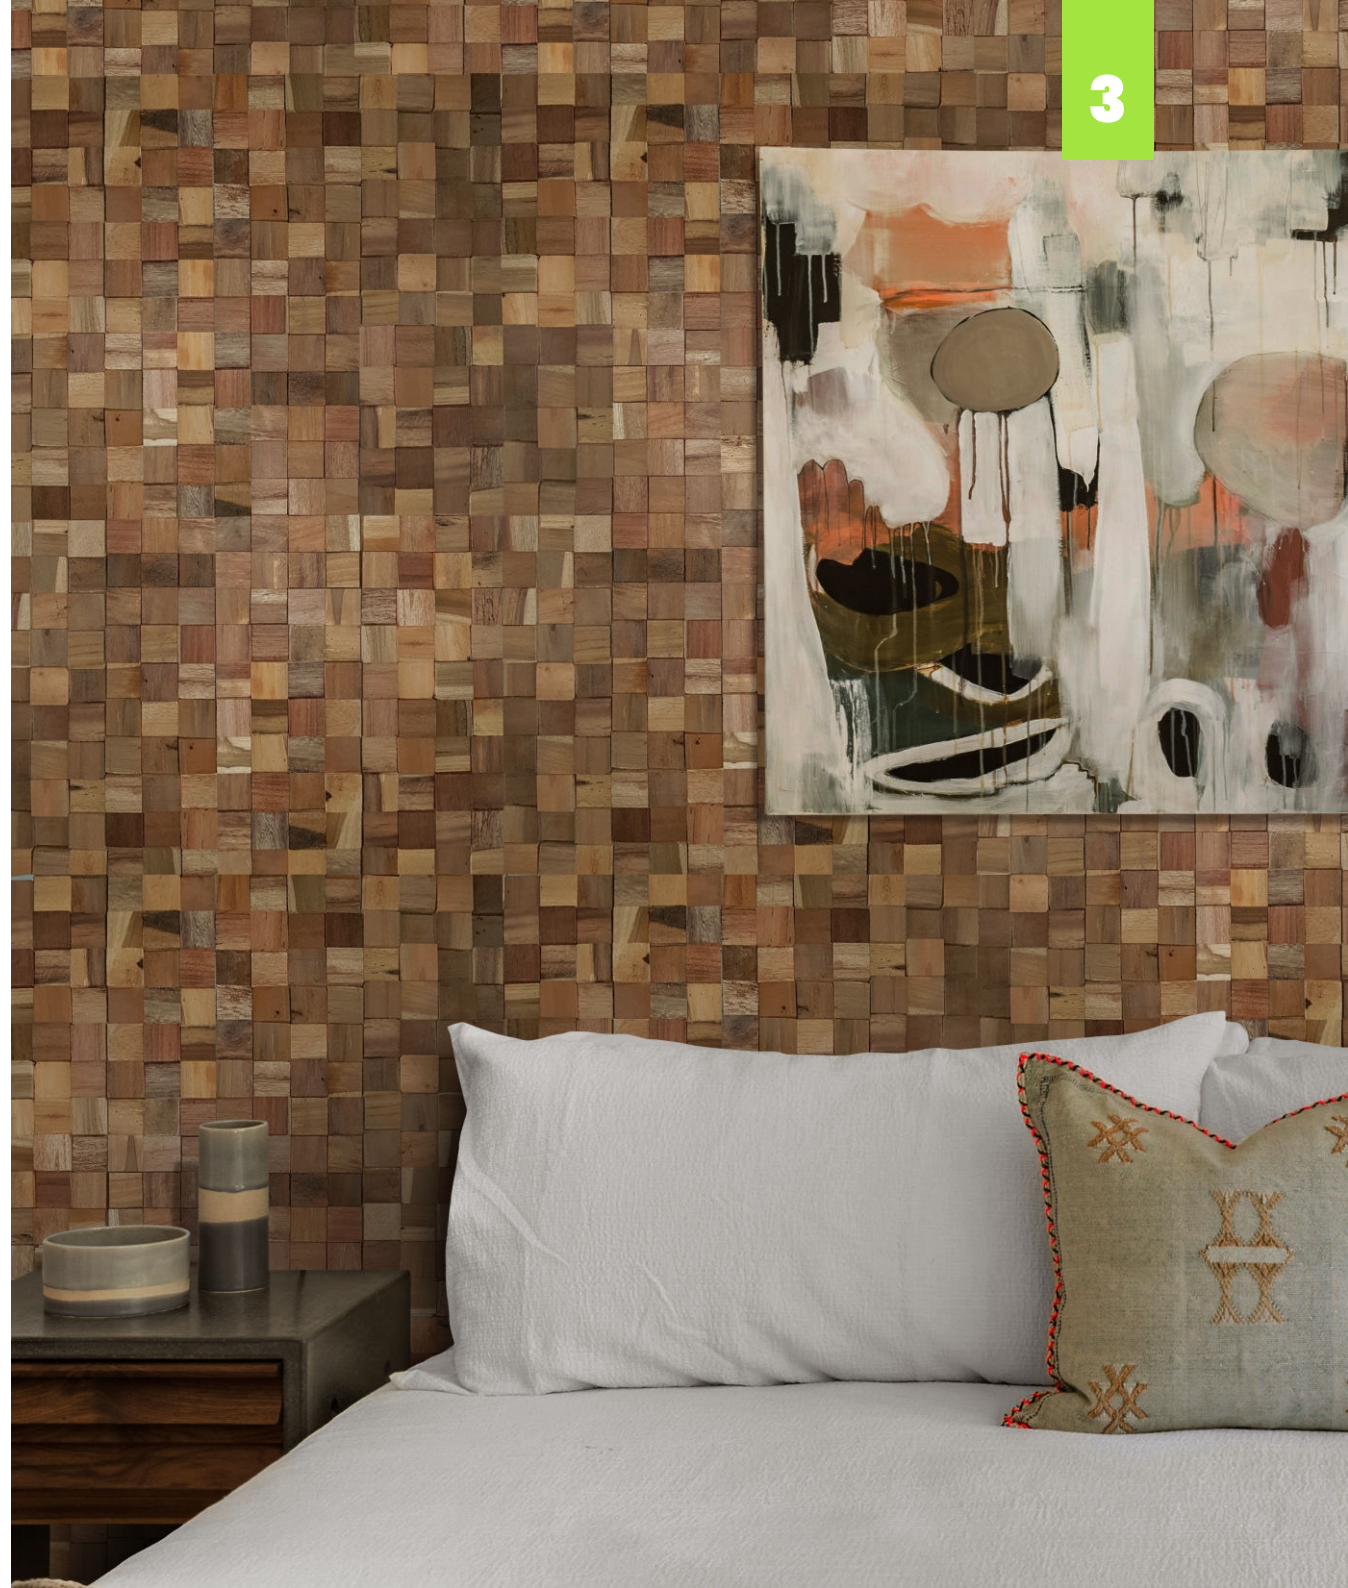

# RECYCLED WOOD

---

Most our products are made from recycled wood, which comes from various sources such as window frames, tables, doors, and even bunk beds. We strive to deliver natural beauty in to your spaces.

Recycled wood may seem like a whole new concept in interior design, it isn't. Given how long a tree must grow, it would be a shame if we even waste wood. So it is crucial for us to reclaim it. Moreover, recycled wood is a perfect choice in design, considering its unique and beautiful shape.

The wood we recycle has natural colour and an excellent visual appeal that will make your wall's look stunning. Not to mention that it also has an acoustic insulation quality to reduce noise and sound transmission.

As time passes, the economy changes us, making us more innovative and much savvier. The economy undoubtedly impacts all industries, particularly furniture and interior design. We all know interior design and furnishings are crucial to creating a dream house or building. So, people are willing to invest in furniture, especially if it is more aesthetics but still has higher quality.

In an interior design project, wall panel is in great demand to make your room more comfortable, calm, and peaceful but still have an exquisite vibe. Consequently, Rustic World Timbers gives you an innovation to make your wall looks simple yet has a luxurious and elegant vibe.

Wood wall panel is a handcrafted artwork made from eco-friendly wood to line the walls, so it generates a valuable, classy, and magnificent design for your room. The beauty of our wall panel comes from the union of naturally beautiful wood pieces with the artistic touch of human design, making them new and unique. On top of that, the rustic touch and magnificent colors enhance the beauty in every part of the panels.

# ECO FRIENDLY

---

We want to create a wall panel that has a special meaning for everyone, so we put a lot of effort into making a beautiful handcrafted wood that you can enjoy. Also, most importantly, our wall claddings are environmentally friendly and non-toxic because we use water-based materials and anti-fungi treatment.
